Career Objective:

To apply my expertise in Artificial Intelligence and Machine Learning to deliver innovative solutions, while continuously enhancing my skills and contributing to organizational success.

Educational Qualification: (BE- Artificial Intelligence and Data Science)

Qualification	Year	College	University	%/ CGPA	Class
BE	2026-27	Amrutvahini College of Engineering, Sangamner, Dist.: Ahilyanagar	SPPU, PUNE	Pursuing	Pursuing
TE	2025-26		SPPU, PUNE	9.71	First Class Distinction
SE	2024-25		SPPU, PUNE	9.67	First Class Distinction
FE	2023-24		SPPU, PUNE	9.55	First Class Distinction
HSC	2022-23	R.B.N.B College, Shrirampur	Pune Board	67.00	First Class
SSC	2020-21	New English School, Takalibhan	Pune Board	83.00	First Class Distinction

Internship:

Name of Company: mahendra technosoft pvt. ltd

Description: During my internship at Mahendra Technosoft Pvt. Ltd., I gained practical

	exposure to Artificial Intelligence concepts and workflows, while also developing and deploying web projects using Wix Studio. Working on live client projects helped me strengthen my problem-solving skills, adaptability, and professional communication, bridging the gap between academic knowledge and industry practice.
	Duration: 1st January 2026 – 31st January 2026
	Achievements:
	➤ Secured 9.6+ SGPA consistently across semesters. ➤ Recipient of Cybage Khushboo Scholarship and Amrut Meritorious Scholarship ➤ Served as Class Representative (CR), demonstrating leadership and responsibility. ➤ Achieved 20th Rank at VIT Bhopal Hackathon (Technical Achievement). ➤ Won 1st Prize in Fort Making (College Activity).
	Certification Courses: ➤ The Ultimate Job Ready Data Science Course – CodeWithHarry ➤ Complete Python: Learn Python from Scratch – CodeWithHarry ➤ Cloud Virtual Internship (AWS Academy Curriculum) – AICTE & EduSkills (Oct-Dec 2024, Grade: Excellent)
	Languages: Marathi, Hindi, English
	Software Skills: ➤ Programming Languages: Python, C++, C ➤ Version Control: Git, GitHub ➤ Data Science Libraries: NumPy, Pandas, Matplotlib, Seaborn ➤ Machine Learning: Model building, training, and evaluation ➤ Databases & Containers: MySQL, Docker ➤ Web Development: Web Scraping (BeautifulSoup), Wix Studio ➤ IoT & Embedded Systems: Basics of ESP boards, NodeMCU, sensor automation

Project:

1.

Healthcare Fraud Detection (Data Science)

Objective: Detecting frauds in medical bills by matching them with authorized databases using **OCR technology** and advanced analytics.

2.

Smart Waste Segregation (Machine Learning)

Objective: Developed a logistic regression model to classify and segregate waste types, promoting efficient waste management.

3.

IoT-Based Waste Segregation System

Objective: Designed a hardware system using three different sensors to automatically segregate three types of waste.

4.

Some more Projects

- **Department Feedback App** - A mobile/web app for collecting and analyzing student feedback to improve departmental performance.
- **Churn Prediction in Online Game Simulation** - Machine learning model to predict player churn and enhance retention strategies.

Strength:

I have strong **leadership qualities** and work with **honesty, punctuality, and discipline**. I am a **quick learner**, highly **adaptable to new environments**, and an **assertive individual** who communicates confidently and takes responsibility.

Hobbies:

- Exploring emerging technologies
- Mimicry performance
- Artistic drawing

Date:

Place: Sangamner

(Mr. Patare Rupesh Ramnath)
